

MULTI-FUNCTION SATA QUICK DOCK QUICK INSTALL GUIDE

MODELS 130004 & 130165

Thank you for purchasing the MANHATTAN® Multi-Function SATA Quick Dock.

It quickly installs through a USB port (or eSATA on Model 130004) — no need for external enclosures or PC case installation/removal. See back for connections; see the user manual on the CD for One Touch Backup software installation.

- Simple installation with automatic card detection: Just connect your cables — *USB connections are needed on Model 130004 for card reader and/or hub functions* — and insert the disks/drives/cards involved in the data transfer (see back of sheet for connections and indicators)

NOTE: Take extra precautions against electrical discharges when swapping hard-disk drives. Do not handle the drive by its sensitive components or place near speakers, TVs or other magnetic devices. MANHATTAN accepts no responsibility for lost data.

- Provides fast data access to portable storage and SATA drives with one-touch backup (see CD)
- Dual insertion slot accepts 3.5" and 2.5" SATA high-capacity HDDs with 2-port Hi-Speed USB 2.0 hub for additional peripherals
- Supports data transfer rates up to 480 Mbps for Hi-Speed USB 2.0; up to 3 Gbps for SATA
- Plug and Play — Windows compatible and hot-swappable
- Lifetime Warranty

One-touch backup button (requires the installation of the software on the included CD)

QUICK DOCK FRONT

Card/disk slots: XD, SecureDigital, CompactFlash, Memory Stick

Hi-Speed USB 2.0 type-A ports (2)

Power/activity LED

QUICK DOCK REAR (MODEL 130165 IS SIMILAR, BUT WITHOUT eSATA PORT)

Hi-Speed USB 2.0 mini B port

Power button

Power adapter jack

DC 12V

eSATA port (Model 130004 only)

SPECIFICATIONS

Standards and Certifications

- USB 2.0; USB 1.1; SATA 300; FCC; CE; cUL

Ports

- Front: 2 Hi-Speed USB 2.0 type-A female, CompactFlash, Memory Stick, SecureDigital and XD card slots
- Top: dual 3.5" / 2.5" SATA data and power connection
- Rear: Hi-Speed USB 2.0 mini B female, power adapter female, eSATA female (130004 only)

General

- SATA transfer rates: to 3 Gbps
- USB transfer rates: 480 Mbps / 12 Mbps / 1.5 Mbps
- Material: plastic
- Power and activity LED indicator with power switch

Power Supply

- Input: 100-240 V; 50-60 Hz; 0.8 A
- Output: 12 V, 2000 mA
- Polarity: center post positive (+), outer ring negative (-)
- Adapter cord: 1.5 m (58 in.)

Physical

- USB cable: 80 cm (32 in.)
- SATA cable (130004 only): 80 cm (32 in.)
- SATA-eSATA cable with bracket (130004 only): 50 cm (20 in.)
- Dimensions: 16.6 x 11.1 x 10.3 cm (6.5 x 4.4 x 4 in.)
- Weight: 241 g (8.5 oz.)

System Requirements

- USB type-A port (or eSATA port, 130004 only)
- Windows 2000/XP/Vista/7

- One-touch backup and card reader require USB connection and cable

Package Contents

- Hi-Speed USB 2.0 Multi-Function Docking Port
- Power adapter with eSATA (130004 only) and USB cable
- SATA cable and SATA-eSATA cable with bracket (130004 only)
- Quick install guide
- Software CD

Compatibility

* Adapter required (not included)

Regulatory Statements

This equipment has been tested and found to comply with limits for Class B digital devices pursuant to Part 15 of Federal Communications Commission (FCC) Rules.

This equipment has been tested and found to comply with the limits of the European Council Directive on the approximation of the law of the member states relating to electromagnetic compatibility (89/336/EEC) according to EN 55022 Class B.

These limits are designed to provide reasonable protection against frequency interference in residential installation. This equipment generates, uses and can radiate radio frequency energy, and if not installed or used in accordance with the instructions may cause harmful interference to radio communication.

However, there is no guarantee that interference will not occur in television reception, which can be determined by turning the equipment off and on. The user is encouraged to try and correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antennas.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from the receiver's.
